 **trollcatz** (<https://trollcatz.livejournal.com/>), remember the conversation about terrorbirds ([Phorusracidae](https://www.livejournal.com/away?to=http%3A//en.wikipedia.org/wiki/Terror_bird)_?) ([https://www.livejournal.com/away?to=http%3A//en.wikipedia.org/wiki/Terror_bird\)_?](https://www.livejournal.com/away?to=http%3A//en.wikipedia.org/wiki/Terror_bird)_?))?

Dark secret of a beloved Hollywood superstar confirmed!

Spokespersons for Big Bird insist that he has nothing to hide, and in spite of unfounded prejudicial rumors, he prefers cake, peanut butter sandwiches, and a cold glass of milk to a diet of capybaras and slow children.

Any attrition among less-famous Muppets is to be blamed strictly on the notorious flakiness of actors, especially those that also happen to be puppets.

COLLAPSE

Poor Big Bird is getting such bad press these days. Elmo accused him of working for the Mossad on the Daily Show this week.

That little punk! Nobody takes him seriously--his residuals have been going up his nose ever since that talking Elmo doll had him papering his dressing room with hundred-dollar bills.

Child stars. Mostly messed up, I'm tellin' ya.

But Big Bird was my favorite Sesame Street character! You're telling me that he was just using his sociopathic charisma to draw me in so that he could eat me?

I see no evidence of that.

(Ohgodohgodohgod I did not just say that.)

Is it fair to hold Big Bird responsible for the actions of his forebears? I think not. To assume that, just because he's descended from a line of merciless fearsome carnivores, he had anything to do with Mr. Hooper's death, is pure bigotry. He is not defined by his genetic inheritance.

I stand by my feathered brother/sister/whatever, and will continue to do so!

Big Bird and The Doctor. I knew they had something in common. You can see the hint of tragedy in their googly eyes.

A friend of mine works for a H3nson-related company; much of their duties include (blank)-live creation maintenance. One of her stories is about when (Blank) -live went to Germany. Upon BB's materials list is that BB is covered in "Yellow Turkey Feathers". Apparently it is not legal to import the feathers of the rare Yellow Turkey* into Germany, & much lawyers and hilarity ensued.

*Well, that which is not obviously permitted must be forbidden, nicht wahr? Oh, those wacky Germans.

No disguise about it. He's a mammoth.

Never tried shoggoth pizza dough, though. I make mine with beer.

I have a quote from the celebration of 5 years of S. St. (I am old!) from a devoted watcher - "I know Big Bird isn't a real bird. There's a just plain bird inside."
